PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 3.6 years of experience in developing enterprise-grade applications using Java and Spring Boot. Hands-on experience in microservices architecture, REST API development, database design, and production issue resolution within insurance and hospitality domains.

TECHNICAL SKILLS

Programming: Java 8, SQL
Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Spring Security
Microservices & APIs: RESTful APIs, JWT, Swagger/OpenAPI
Databases: MySQL, MSSQL, Oracle
Tools: Maven, Git, GitLab, Jira, Postman, JMeter, Grafana
Servers: Apache Tomcat, WebLogic
Concepts: OOP, Collections, Multithreading, Exception Handling, Design Patterns
Methodology: Agile / Scrum

PROFESSIONAL EXPERIENCE

Consint Solution Pvt. Ltd.
(Project transitioned from Track Four Infotec Pvt. Ltd.)
Client: Health Insurance TPA of India Ltd. (HITPA)
Feb 2025 – Mar 2026

- Developed and maintained microservices for Pre-Authorization and Claims modules using Spring Boot.
- Designed and implemented REST APIs integrated with Corporate, Member, Insurer, and Provider portals.
- Implemented business validation logic for claim processing workflows.
- Integrated authentication and authorization using Keycloak and JWT.
- Developed CRUD operations for high-volume transactional data using Spring Data JPA and Hibernate.
- Wrote unit and integration tests using JUnit and Mockito.
- Analyzed and resolved production issues through root cause analysis and log monitoring.
- Used Grafana and JMeter for monitoring and performance validation.

Garg Data Information Pvt. Ltd.
June 2024 – Dec 2024

- Contributed to backend development of enterprise web applications using Java and Spring Boot.
- Developed RESTful services and integrated with frontend modules.
- Designed and optimized SQL queries for MySQL and MSSQL databases.
- Participated in Agile ceremonies and collaborated with cross-functional teams.

Webearn Solution Pvt. Ltd.
Oct 2022 – June 2024

- Developed backend modules using Core Java, JSP, and Hibernate.
- Implemented REST APIs and database operations for business workflows.
- Worked on bug fixing, enhancement requests, and deployment support.
- Assisted in application deployment on Apache Tomcat server.

PROJECT EXPERIENCE

ICMS – Integrated Claims Management System
Client: Health Insurance TPA of India Ltd.
Environment: Java 8, Spring Boot, Spring Data JPA, MSSQL, Keycloak, Maven, GitLab, Grafana, JMeter

- Developed microservices for Preauth and Claims modules.
- Implemented secure REST APIs for inter-service and portal communication.
- Designed database interactions for claim lifecycle management.
- Contributed to improving transactional consistency and validation logic.

BSS – Procure-to-Pay System
Client: Marriott, Hyatt, Hilton
Environment: Core Java, JSP, Hibernate, Spring Boot, MySQL, Tomcat

- Developed backend components for procurement and finance workflows.
- Implemented CRUD operations and business validation rules.
- Integrated REST services for external module communication.

EDUCATION

MCA – Chandigarh University, Mohali
B.Sc – Magadh University, Bihar
